309*Y HEAT RESISTING PVC FLEXIBLE HO5V2V2-F

Flexible plain annealed copper conductors, Heat Resisting PVC insulated and sheathed.
300/500 volts grade to BS6141

Heat Resisting PVC Flexible

Operating temperature: Maximum 85°C, Minimum flexing 0°C

Conductor identification:
- Two Core - Brown and Blue
- Three Core - Brown, Blue and Green/Yellow
- Four Core - Brown, Blue, Black and Grn/Ylw
- Five Core - Brown, Blue, 2 Black and Grn/Ylw

Minimum bending radius: 6 x overall diameter.

Applications: Internal/equipment wire for medium duty appliances eg washing machine. Particularly suitable in high temperature areas.
