

6491X H05V2-U Heat Resisting Cable

Solid annealed copper conductor (1/0.8mm), heat resisting PVC insulated, 300/500 volts grade to BS6004 (where applicable) DIN VDE 0281-3

Applications:	Lighting fittings and inside appliances
Conductor stranding:	Class 1 solid circular or circular compacted
Operating temperature:	Maximum 105°C Minimum bending 0°C
Minimum bending radius:	Diameter up to 10mm 3 x overall diameter
	Diameter 10-25mm 4 x overall diameter
	Diameter above 25mm 5 x overall diameter

For current rating information, refer to Table 4D1A

Size sq mm	Class of conductor	Nominal overall diameter mm	BATT part number brown	BATT part number blue	BATT part number white	BATT part number red	BATT part number yellow
0.5	1	2.05	16007	16400	16477	16004	16005
