

High Temperature Twin Core Glass Fibre

BATT Part No:	52001
Application:	Thermocouple cable and compensating cable high temperature type KCB
Types:	KCB
Size:	1 pair, 19/0.25mm
Conductors:	0.93sqmm Class 5 Flexible
Insulation:	PTFE (Polytetrafluoroethylene)
Core identification:	See colour code link in technical tab
Armour/Protection:	GFB (Glass fibre braid) & NPCUB (Nickel plated copper wire braid)
Sheath/Jacket:	PTFE (Polytetrafluoroethylene)
Colour:	Blue
Voltage:	300/500v
Types:	KCB
Standard:	BS4937 International thermocouple reference tables. Extension & compensating cables. Tolerances and identification systems
